INSULATION
DURABILITY, SAFETY

Titan 95 integrates comfort, safety, and energy efficiency in a single door and window system. Designed to meet passive house standards, it ensures superior thermal insulation for energy-efficient living spaces.

The modular 95 mm structure and 54 mm imported thermal barrier guarantee long-lasting performance. Aluminum wedges and gaskets in every corner and profile provide airtight sealing. XPS foam and co-extruded wedge gaskets optimize thermal performance and hardware compatibility. Supporting mechanisms up to 200 kg, Titan 95 HI offers both robust and secure operation. Experience superior insulation, strength and safety with Titan 95 HI.
